## *The FY2007 Municipal Pie...What's Your Library's Share?*

The *FY2007 Municipal Pie* report relates the amount expended from the general fund by each city and town on public library service, to the amount expended to operate the entire municipality, for July 1, 2006 through June 30, 2007.

Expenditure information for this report comes from the survey report, Schedule A: Actual Revenues and Expenditures in Each Fiscal Year. Town accountants and city auditors submit this report to the Division of Local Services' Bureau of Accounts each fall after the close of the fiscal year. The Division of Local Services can release data for an individual municipality as soon as their report has been reviewed and edited. However, the database for all cities and towns often takes a year or more to finalize. Expenditure data for the *FY2007 Municipal Pie* Report was received from the Department of Revenue in October 2007. Three municipalities included in this report (Hawley, New Ashford, and Washington) do not have public libraries.

Based upon the Uniform Municipal Accounting System (UMAS), revenues and expenditures are reported on Schedule A for general, special revenue, capital project, enterprise and trust funds. Expenditures are submitted in great detail and they are aggregated into a database in the following functional categories: General Government, Police, Fire, Other Public Safety, Education, Public Works/Highways, Human Services, Culture and Recreation (including public library expenditures), Debt Service, Intergovernmental Assessments, Fixed Costs, and Other Expenditures. The Division of Local Services separated public library expenditures from the Culture and Recreation category for inclusion in this report.

This report includes expenditures from the general fund only. Spending from special revenue, enterprise, capital projects, or trust funds is not reflected in these figures. Variations among communities may occur in the "other" and "public works" categories because many communities account for spending on sewer, water, utilities, and other public works functions in enterprise or special revenue funds, rather than the general fund. Nevertheless, the Department of Revenue considers spending from the general fund to be the fairest way to compare operating expenditures from community to community.

State Aid to Public Libraries payments are not included in the FY2007 municipal expenditures data reported for public libraries. These are offset local aid funds which are to be held in a separate account for the library to expend without appropriation and are, therefore, not a revenue source for the general fund. Regional library funds however, do appear in the general fund and have been subtracted from Schedule A expenditures for this report.

In FY2007, of the \$16.5 billion general fund dollars spent by the Commonwealth's municipalities, \$208.3 million was spent on public libraries. The pie chart on page 1 shows the percent of municipal spending from the general fund in various categories. Education spending leads, with 48.66% of the pie. Public libraries account for 1.26% of the total expenditures.

This report includes a breakdown of municipalities by population group. Population figures are from the 2007 population estimate.

Please note: The financial data in this report is compiled solely from data provided by the Department of Revenue, Division of Local Services. In some instances it may differ from data reported by libraries to the Board of Library Commissioners on the State Aid to Public Libraries Financial Report Form.
